Brilliance Beyond Books

WESOME!

Rishit Behra of Grade VIII has attended a two week internship called **Young Innovators Programme at CCMB - Centre for Cellular and Molecular Biology, Hyderabad**. Our student was fortunate enough to be one among 27 students, after a thorough screening test. Rishit shares his experience with us.

My experience at Young Innovators programme- CCMB Hyderabad

I am extremely glad to share my experience of the prestigious CCMB's, Young Innovators programme.

I always feel happy and excited to learn new things. I had a great learning experience working with the research professionals of CCMB for 2 weeks.

During these days, I have participated in many hands-on activities, experiments, and in-depth discussions with scientists at CCMB.

In the programme, I had the opportunity to visit the Advanced Microscopy Lab wherein, we got to witness the Electron Microscope, 3D Microscope, High Resolution Microscope, Surface Topography Microscope etc. Fellow researchers have explained the working of these microscopes.

It was a thrilling experience for me to extract the DNA from the banana and I also witnessed the PCR Lab (Polymerase Chain Reaction) where, a single strand of DNA can be copied into millions using enzymes.

It was an enchanting experience for me to learn the basics of Spectrophotometer, X-ray Crystallography, research in the Fruit Fly Lab and the Zebra Fish Lab. Our visits also included, Cancer Cell Lab, Tuberculosis Lab, Cell Incubation Lab, Human Chromosomes Lab wherein, research fellowship students of the institutes have explained to us the study and culture of *Xanthomonas oryzae pv oryzae* and also how mutations occur, resulting in the formation of Cancer cells. We also visited LaCONES (Laboratory for the Conservation of Endangered Species) in the department of Ecology and Conservation Biology.

We were also introduced to entrepreneurship by Atal Incubation Centre. We had an opportunity to perform Corona screening tests from the sample of waste water. During the programme, we had lectures on Antibiotic Resistant Bacteria, Post Traumatic Stress Disorder (PTSD) by the department of Neuroscience.

On the last day we had an interactive session with the Director **Dr. Vinay K. Nandacoori** who bestowed us with certificates.

I came out of my comfort zone and made friends with students of other schools.

On the whole it was an inspiring learning experience, the memories of which I will cherish.

I am grateful to the Director, Scientists and Coordinators of CCMB for guiding us through the programme and for the scrumptious food which was served at the canteen.

I express my heartfelt gratitude to our Correspondent ma'am, Principal ma'am, Prathibha ma'am and Ashwathi ma'am and the teachers of Genesis for the wonderful opportunity they have given me.

Thank you! 😊

Rishit Behra

Special Achievements

Skating

Genesis emphasizes more on sports and games which is an integral aspect of Holistic Development of a child. We are glad to announce the special achievements of our students who are adding more feathers to our cap.

We are proud of our student **K. Charan** of IVB who has won **Gold medal** in (500m) & **Silver medal** in 1000m at state level (U-11 boys) **SGF State Level Speed Skating Championship** 🏆.

We are excited to announce that master Charan has been selected for the upcoming **Roller Skating National Championship**.

Hearty congratulations and best wishes for the forthcoming event!

Hearty congratulations to our student **G.Ramsaketh Reddy** of VIIA and **G.Rithvik Reddy** of VA, for securing **three Bronze medals** each in different categories at **SGF State Level Speed Skating Championship** 🏆

Badminton

We are pleased to announce that **M. Sri Harsha** has racked up **Gold medal** in the **Open State Badminton Championship** (U-14 boys) held here in Hyderabad. He will be soon representing our state at the **National Championship**. Congratulations and all the best.

Fostering future leaders & change makers (NCC)

Our school is committed towards social and national responsibilities, bearing this in mind we have raised the NCC wing for the girls to ensure their holistic development. Our cadets have attended the NCC camp in Bison Training Ground, Secunderabad from 30th Dec 2023 to 08th Jan 2024, which provided Kaleidoscope of marching opportunities to the cadets by strenuous drill practices, personality development & voluntary service programmes, guest lectures, sports competitions etc.

Cadets participated in multifarious learning activities with an unquenchable spirit. After the Annual Camp our NCC Cadets had practical and theory examination for "A certification".

Our cadets have cleared written and practical exams and have successfully completed the Academic year after a two year course of NCC.

We thank our NCC officer **Ms. Geetha Joseph** for her guidance, support and motivation in making the NCC programmes successful.

A Platform for tomorrow's leaders - Youth Parliament

To make students understand the parliamentary procedure, to make them consider public issues and form their opinion on them and to train students in the technique of group discussion, Genesis has organized a "Youth Parliament" session for the students of Grade VIII and IX.

It was just a reflection of how our Parliament works. The ruling and opposition parties debated and discussed in an outstanding way on different topics like the Ministry of home affairs, infrastructure and response system of the ongoing public health challenges, how is the sports ministry leveraging technology for enhancement of fan engagement and promote sports etc.

This wonderful session gave our students an opportunity to enrich their knowledge in politics. The session went on successfully in terms of generating enthusiasm and interest among the students as reflected in their active participation in the event and have learnt life skills and communication skills through this session.

The first ever Youth Parliament in our school was a nice experience for everybody.

Ministry of Tourism

Our sincere thanks to our social department **Ms.T.Saritha** ma'am, **Ms. C.Vidyavathi** ma'am, **Ms. P. Sangeetha** ma'am, **Ms. A. Shireesha** ma'am for guiding the students.

Special Assemblies

Sankranti-IB & VIIIA

New Year-IE

One of the best ways to develop lifeskills is by communal celebration. The special assemblies of this month include Abilities and Achievements, New Year and Sankranti Celebrations. The importance of Bhogi, Sankranti & Kanuma were displayed with great festive spirit by the students. New year special assembly ushered hope, positivity and joy in all students and teachers with their enthusiastic performances.

The hidden ability of a person was brought out in an excellent way through the assembly- 'Abilities & Achievements' showcasing the efforts and struggles of our great freedom fighters.

Abilities & Achievements-VIIIB

Republic Day

Freedom in Mind, Faith in Words, Pride in our Hearts, Memories in our Soul, our school celebrated the 75th Republic Day with the guard of honour and unfurling our national flag by our Principal.

After the flag hoisting our Director sir, Correspondent ma'am and our Principal ma'am saluted the Republic Day parade by our NCC cadets.

Students of Grade III in the parade, were dressed in the costumes of different states of our country to showcase the oneness of our Nation.

The programme consisted of speeches, phenomenal job by our choir, sensational dances and drill with pom poms by our students of Grade IV . Our students of Grade III have presented and spoke about National Symbols. It was an enlightening programme for all.

On the account of Republic Day, **Balancing cone** competition was conducted for **Grades I & II**. Children have participated with great sportive sprit and had fun.

Special achievements were recognized and were awarded. It was indeed a day of rejoice which made everyone feel proud of being an Indian!

OPEN

Turkayamjal Campus

YES! WE'RE
OPEN

Founder & Chairman

We believe that education is everything & everything around it is about preparing your children to be successful at doing what they love. We are extremely overwhelmed to announce that Genesis has come up with two new campuses under the stewardship of our dear Chairman and our Directors, one at Alwal & another at Turkayamjal.

The entire Genesis fraternity has gathered at new campuses and celebrated the joy of togetherness with some fun filled activities.

Alwal Campus

Sankranti Celebrations

"Imagination is the highest kite that can fly". The idea of a kite brings a smile on children's face, the fun they have as they create their own flying object and then take it outside to fly. As a part of Sankranti celebration, Kite and Rangoli making activity was organized for the students of **Grades I to V.**

It was a wonderful opportunity for the students to showcase their creativity. Students made beautiful kites and decorated them with glitters and patterns. On the whole, the activity was full of colours, fun and innovative thoughts. Such activities inculcate a feeling of thrill, positivity and happiness in our children.

Teachers' Day Out!

Our management has organized a special outing exclusively for our dedicated teachers on 12/01/2024 to Yadagirigutta and to a beautiful farm house at Keesara. The outing was a gesture of gratitude for the tireless efforts of our exceptional educators. The day outing started first to Yadagirigutta, the most unique, and pleasant Hillock, magnificent and sprawling pilgrimage centre and an architectural marvel, aesthetically done ensuring its divinity both internally & externally. Our teachers had a wonderful spiritual time and blessed darshanam at the temple.

Then all have returned to the farm house at Keesara, the day was further enriched by moments of relaxation and delectable meals, adding to the joyous experience. Amongst the lush greenery, laughter filled the air as the bonds grew stronger and memories were created. Staff members had a great time together with lots of activities such as games, physical activities, dance, music and water pool.

We thank our Director sir, Correspondent ma'am and Principal ma'am for organizing the picnic which was much needed and well spent with lots of sweet memories, positivity and strong bonding among the staff.

PA-III Examinations

Periodic Assessment -III was held successfully for all the grades from pre-primary to grade X to assess students learning for further progress.

>>> PARENT TEACHER MEETING

Parent Teacher Meet (PTM) was held on 20th January. Parents have attended the PTM to discuss their child's progress at school and find solutions to academic or behavioral problems. The parents appreciated the effort put in by the teachers in revising the topics and making them perform well in the exams. Parents have given their valuable suggestions and feedback which are considered very helpful for the teachers and they are trying to make the necessary changes.

Sankranti Celebrations

To instill the value of cultural affinity in our students, our blooming buds of Genesis have celebrated Sankranti in a grand manner as a dedication to our farmers. They had an amazing time marking the Pongal festivities, before they broke off for their Pongal vacation. Students have come dressed in ethnic attires to take part in the celebration. A traditional mini village was designed to mark the true manifestation of our rich culture and traditions.

To bring the festive atmosphere, students and teachers danced together. Afterwards, teachers explained the importance of the festival and guided our tiny tots to make colourful paper kites as a take away for the children to enhance their celebrations.

Embracing Purity and Light- White Colour Day

Colour has the ability to inspire, excite, soothe, heal and even agitate. So, to infuse the concept of white colour to the tiny toddlers our school celebrated White Day with zest and zing. All our little champs were dressed in white and were looking like angels.

The celebration began with an introduction about the significance of white colour. Students were made to recognize the white colour objects. They were excited while doing the group activity which was arranged for them by the class teachers. The aura was immensely peaceful and calming throughout the day! We thank all the parents for supporting us at every step.

Republic day celebration & Fancy Dress competition

As India commemorated its 75th Republic Day on January 26, 2024, children of our Pre primary observed this day in grandeur by performing amazing activities to celebrate the most significant patriotic day. The school as well as the children were decked up with tricolor elements and accessories. Fancy Dress competition was conducted for the students on the account of Republic Day. Children have come dressed as freedom fighters, performed gracefully and mesmerized everyone with their attire. It was a great learning experience for our children to see different religions and languages, their outfits, which has strengthened their faith in humanity and love for people of all faiths and religions.

Inspiring Personality of the Month

"The Mozart of Madras"

A.R. Rahman an Indian composer, singer and music producer. He is widely considered one of the greatest music composers in the world. Rahman's life is marked by several lessons and inspirations.

Rahman faced financial difficulties and personal tragedies during his early life. His father's death and the family's subsequent financial struggles forced him to take up composing for the film industry to support his family.

From a young age, Rahman exhibited a deep passion for music. This passion was the driving force behind his decision to pursue a career in the music industry, despite facing societal and financial challenges.

Rahman is known for his innovative and experimental approach to music. He introduced a unique blend of Indian classical music with electronic music, creating a distinctive sound that set him apart in the industry. This willingness to explore and push boundaries contributed to his success.

AR Rahman

Despite facing initial setbacks and rejection, Rahman remained persistent in his pursuit of success. His resilience and belief in his talent eventually led to breakthrough opportunities.

Rahman's ability to connect with audiences globally has earned him international acclaim. Winning two Academy Awards for his work in the film "Slumdog Millionaire" catapulted him to global fame, showcasing the impact of talent transcending geographical boundaries.

Rahman's versatility is evident in his diverse portfolio. He has composed music for various genres of films, from romantic dramas to historical epics, showcasing his ability to adapt and excel in different musical styles.

Rahman has used his platform to address social issues. His work often reflects a commitment to promoting unity, peace, and understanding through music.

Despite achieving immense success, Rahman remains humble and grateful. He attributes his success to the support of his fans and the opportunities presented to him, emphasizing the importance of humility in the face of success.

In essence, A.R. Rahman's life teaches us about the power of passion, perseverance, innovation, and resilience in the face of challenges. His journey from humble beginnings to global recognition serves as an inspiration for aspiring artists and individuals striving to overcome obstacles in their paths.

Fables

Walking On Water

In a quaint village nestled by a lake, tales of an ancient sage who could walk on water were passed through generations. Maya, a curious girl approached the eldest villagers, hoping for insight. He smiled and handed her a pair of shoes, possessed the magic. With hope and excitement, Maya tried them on. Disheasted, she turned. The elder laughed gently, "The secret isn't in the shoes but in knowing where the stepping stones are."

Moral: Real magic often lies in knowledge and understanding

A Glass of Milk

Long ago, there lived a boy who used to do plenty of different jobs to earn a livelihood and use the rest of the earned money for his education expenses. One day when he was doing his job, as usual, he felt hungry. He was starving to the level that he could not barely walk. By gathering some strength, he walked up to a house door and requested for a glass of water. The young girl opened the door and was shocked to see his condition. She decided to give him a glass of milk instead of water. The famished boy gulped the milk and thanked the girl.

Several years later, the girl was severely ill. Dr. Kevin was the in-charge of the girl's case and treated her. After several months of treatment, she was able to eradicate the illness. When the time to pay the bills came, the girl was nervous, as she had no money. But on the bill, it's written, "Bill Paid, A Glass of Milk"

Moral: Good deeds never go in vain. The return to you in the most unexpected ways when you're in need.

Jl. Greeshmi BC VIIC

Simon and the Bird

Once, Simon saw a bird caught in a net spread by some boys. The bird was freed by Simon and it flew away.

A few days later, Simon was eating under a tree. Suddenly, the same bird swooped down and took his food away. Simon jumped up to snatch his food back, but lost his balance and fell down. He was angry at the unthankful bird.

However, he saw a poisonous snake crawling down the tree and understood that the snake could have bitten him. The bird had saved his life.

Moral: Never misjudge people's intentions.

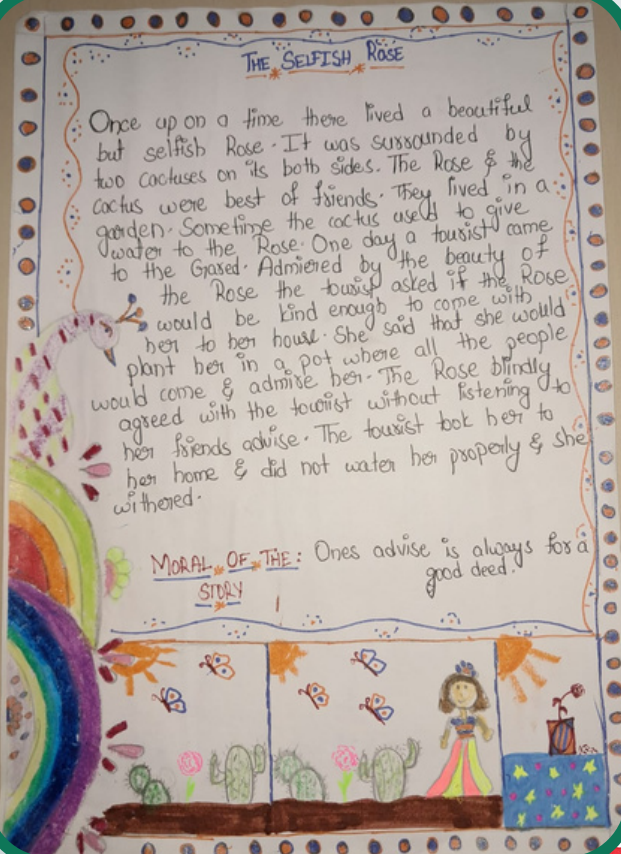

S. Ananya VIIIA

THE SELFISH ROSE

Once upon a time there lived a beautiful but selfish Rose. It was surrounded by two cactuses on its both sides. The Rose & the cactus were best of friends. They lived in a garden. Sometime the cactus used to give water to the Rose. One day a tourist came to the Garden. Admired by the beauty of the Rose the tourist asked if the Rose would be kind enough to come with her to her house. She said that she would plant her in a pot where all the people would come & admire her. The Rose blindly agreed with the tourist without listening to her friends' advice. The tourist took her to her home & did not water her properly & she withered.

MORAL OF THE STORY: One's advice is always for a good deed.

Teacher's Corner

Life skills - Need of the hour

Life skills go hand in hand with development and can assist students to succeed later in life.

Life skills are recognized as those essential skills that bring together the social, emotional, and cognitive capacities of a person to solve problems and achieve goals. Life skills play a vital significant role in a student's success in school and life. A student needs life skills to learn beyond academics. Mastering beneficial lifelong learning skills helps us to work, learn, and live better.

Here Are The Essential Life Skills That Help In Students Future Development

1. **Decision-Making Skills**

Students from a very young age must be taught to make decisions on their own. At home, the parents must grow this skill in kids by permitting them to choose their clothes, food, toys, games to start with.

2. **Communication**

Students require high-touch personal interaction every day to set up healthy social-emotional skills, comprising the ability to understand and communicate with others.

3. **Focus And Self Control**

Being parents, organize your home, so your kids know where to put shoes, books and personal belongings.

We live in a noisy, distraction-filled globe, so quiet activities such as reading a book, completing a puzzle, enjoying sensory activities can assist students in increasing focus.

4. **Resilience and Positive Thinking**

As a parent, one must not shield and overprotect their child.

In fact, the students should be able enough to learn how to bounce back from failures and not take them to the heart or let it define them for life.

5. **Problem Solving**

Solving real-world problems with a method such as Solution Fluency is vital in surviving and thriving in the present and future.

6. **Critical Thinking**

For the future in a changing world, the ability to think critically is a must. It is about thinking responsibly, independently, and productively.

7. **Self-defense**

In today's world, safety and security is the most vital and foremost priority in everyone's life. Teaching the students this vital life skill of self-defense will not only make them independent but also safe.

In order to teach students to protect themselves, add this life skill to their curriculum.

This is why developing life skills is not only to become successful in life, it's the key for our health and well-being.

Teacher's Corner

Mental Wellness- A Bliss!

Mental wellness can be described as a combination of how we feel (our emotions and life satisfaction) and how we function (relationships with others, personal control, purpose in life and independence)

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make healthy choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood. When we are mentally healthy, we enjoy our life and environment, and the people in it. We can be creative, learn, try new things, and take risks. We are better able to cope with difficult times in our personal and professional lives.

There are 5 steps you can take to help improve your mental health and well-being, these are connect, be active, take notice, keep learning and give.

The definition of bliss includes finding happiness in oneself and in the moment.

Well-being Principles

*Eat. Good nutrition can help you feel nourished on all levels and improve your daily life.

*Move. Discover the power of movement to create vitality in your life.

*Breathe. Learn about breathing and the effect it has on your health and wellbeing.

*Love.
