🧘 21 June – International Day of Yoga

🎵 21 June – World Music Day

🚫 26 June – Anti-Drug Abuse Day

📊 29 June – National Statistics Day

Disha
Direction & Guidance

The beginning of every academic year is more than just a return to classrooms—it is the start of countless new possibilities.

The first few weeks provide us with a valuable opportunity to understand each child beyond academics, recognizing their unique strengths, interests, learning styles, and areas where they need encouragement.

Every classroom reflects a beautiful diversity of personalities. Some children are sensitive and caring, some are energetic and playful, others are quiet and reserved, while a few naturally emerge as confident leaders.

As educators, our role is to embrace these differences with empathy, patience, and purpose, ensuring that every child feels valued, supported, and inspired to grow.

At Genesis, we remain committed to continuously strengthening our teaching practices through collaboration, professional learning, and innovative strategies that foster academic excellence alongside holistic development.

Our teachers strive to create meaningful learning experiences that nurture curiosity, confidence, creativity, and strong values. Parents entrust us with their greatest treasure—their children.

We deeply value this trust and believe that a strong partnership between home and school is the foundation of every child's success.

Together, let us continue to inspire young minds, shape responsible citizens, and make this academic year a journey of joyful learning, meaningful achievements, and lasting memories.

Warm regards
Principal

Inaugural Day Celebrations – Zele

The Inaugural Day celebrations at Zele were marked with great enthusiasm and festive spirit. The occasion was graciously attended by Chairman Mr. Jayapal Reddy and Ms. Rani Jayapal, along with the members of the management from all seven Genesis campuses.

The event came alive with vibrant performances as teachers sang melodious songs, danced with joy, and shared heartfelt glimpses of their inspiring journeys with the Genesis family.

The celebrations reached a cheerful climax with a cake-cutting ceremony, warm wishes, laughter, and memorable moments, making the day truly special for everyone present.

International Yoga Day

On the occasion of International Yoga Day, our students from PP to Grade 7 enthusiastically celebrated the importance of yoga through meaningful activities and a special song.

They learned that yoga promotes physical fitness, mental peace, concentration, and emotional well-being.

By combining the celebration with Music Day, students beautifully expressed the message that both yoga and music nurture a healthy mind, a happy heart, and a balanced life.

Brew & Bond – Coffee Day with Parents

Our Brew & Bond Coffee Day was a delightful opportunity to strengthen the partnership between home and school for our Pre-Primary parents.

The event was graced by our Directors, Ms. Nalini Dadi, Ms. Ananya Reddy, and Ms. Mounika Reddy; Campus Head Mr. Dasu Reddy; Principal Ms. Sridevi; Academic Coordinator Ms. Pravallika , Ms. Reshma; along with our dedicated teachers and enthusiastic young parents.

The interactive session provided parents with a comprehensive overview of the curriculum, teaching methodologies, and the holistic learning experiences offered at the school.

It also served as a platform for meaningful conversations, fostering trust, collaboration, and a shared commitment to every child's growth and development.

Reflection & Thought

Nurturing Mathematical Confidence in Children

As we know, the holiday season has now ended, opening the window for exams. This is the perfect time for parents to gently guide their children toward a calm and confident approach to mathematics.

Comprehension over memorization. True mastery blossoms when a child grasps the why behind a formula, not merely the formula itself.
Rest as a silent teacher . Adequate sleep sharpens memory and calms the mind, proving as vital as any textbook.
Encouragement over expectation . A supportive, judgment-free environment nurtures curiosity, while excessive pressure often stifles it.
Process matters as much as precision . Appreciating a child's method of solving, not just their final answer, fosters deeper thinking.
Small, thoughtful gestures at home can transform math from a source of anxiety into a subject of quiet confidence.

Ms Vishali
Math Dept

Math is easy and simple.

Mathematics is not about being fast; it is about thinking smart. Every equation solved and every problem attempted builds confidence and sharpens the mind. Mistakes are stepping stones to success, helping us learn and grow.

Keep practising, stay curious, and never be afraid to ask questions. Remember, every great mathematician was once a learner. Let numbers become your best friends, and enjoy the exciting journey of discovering the logic and beauty of mathematics every day.

Mathematical strategies for young learners.
1)Practice + Patience = Progress.
2)Concepts × Practice = Confidence.
3)Focus − Distractions = Better Results.
4)Time Management + Revision = Good Scores.
5)Small Steps + Daily Practice = Big Achievements.

🧠🔬 MYTH vs FACT

Think Before You Believe!

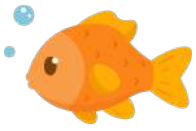
Not everything you hear is true. Science helps us separate facts from fiction through observation, evidence, and experiments. Let's uncover the truth behind some popular myths!

❌ **Myth: We use only 10% of our brain.**
✅ **Fact: We use almost every part of our brain. Different areas work together.**

❌ **Myth: Bats are blind.**
✅ **Fact: Bats can see and also use echolocation.**

❌ **Myth: Lightning never strikes the same place twice.**
✅ **Fact: It can strike the same place many times.**

❌ **Myth: Camels store water in their humps.**
✅ **Fact: Their humps store fat, not water.**



❌ **Myth: Goldfish have a memory of only 3 seconds.**
✅ **Fact: They can remember things for months.**

❌ **Myth: Cracking your knuckles causes arthritis.**
✅ **Fact: There is no strong scientific evidence for this.**

❌ **Myth: Chameleons change colour only to hide.**
✅ **Fact: They also communicate and regulate body temperature.**

❌ **Myth: Sugar makes children hyperactive.**
✅ **Fact: Research shows sugar alone does not cause hyperactivity.**

How to Write Neatly in Exams

Before the Exam :

1. Practice writing regularly to improve your handwriting.
2. Write slowly and carefully while practicing.
3. Use a good quality pen that gives a smooth flow.
4. Maintain proper spacing between words and lines.
5. Practice writing answers within the time limit.

During the Exam :

1. Write with a comfortable and steady speed.
2. Keep your handwriting clear, consistent and legible.
3. Start each answer on a fresh line.
4. Leave proper margins on the left side.
5. Keep the lines straight and do not crowd your answers.
6. Underline headings and important points.
7. Use points, diagrams and headings to make your answers more presentable.
8. Stay calm and focused.

Extra Tips :

1. Make your handwriting your strength.
2. Do not scribble or overwrite.
3. If you make a mistake, cross it lightly and move on.
4. Write important keywords neatly and clearly.
5. Use diagrams, maps and flowcharts wherever needed.
6. Neat writing leaves a good impression.
7. Remember – Neat writing can bring extra marks!

Good handwriting reflects your good preparation.
Write neatly, score highly!
