Special Achievements

A Proud Achievement on the Global Stage!

Charan Kollimarla of Grade VII-E proudly represented India at the 2026 Flanders Grand Prix, held in Ostend, Belgium, from August 13–16, 2026.

Competing in the Scholier Boys – Track category, Charan showcased remarkable skill and determination, securing commendable positions across multiple events.

His participation at this international-level competition is a remarkable achievement and a proud moment for Genesis School. We congratulate Charan on his outstanding performance and wish him continued success in his skating journey! Genesis School proudly celebrates this young champion! 🏇🏆

RANK	SKATER	TIME
1	Filippo Galliani Italy ASD POLISPORTIVA BELLUSCO	07:11.449
2	Noah Pofahl Germany MANAO FUTURE TEAM	07:12.048
3	Davide Maggio Italy ASD PATTINAGGIO ALTE CECCATO CLUB	07:13.247
4	Charan Kollimarla India SKATENINE	07:13.848

Rithwik Rudra of Grade VIIE won a Bronze Medal in the Under-14 category at the CBSE South Zone Taekwondo Championship. Congratulations on this wonderful achievement!

Congratulations!

Congratulations to our Under-15 Girls Kho Kho Team for securing Second Place in the Interschool Sports – Surya Pinnacle Season 3. Their achievement is a testament to their teamwork, dedication, and sporting spirit. Heartiest congratulations to our talented players and their coach! 🏆👏

A Tapestry of Freedom, Pride and Patriotism

Marking the 80th Independence Day of our nation, our school celebrated the occasion with immense pride, patriotic spirit and enthusiasm. The celebration brought together students and staff in a vibrant tribute to India's journey of freedom, while also reflecting on the responsibilities of the younger generation in shaping the nation's future.

The celebration commenced with a soulful prayer song by the Grade II students, followed by the ceremonial flag hoisting by our respected Correspondent, Ms. Swapna Reddy Ma'am, in the presence of our esteemed Director, Mr. Sridhar Reddy Sir, and Principal, Ms. Swathi Reddy Ma'am. The Tricolour fluttered proudly as students and staff came together to honour the spirit of freedom, unity and sacrifice.

In her address, the Correspondent Ma'am reminded students that freedom comes with responsibility and encouraged them to become disciplined, compassionate and responsible citizens who contribute positively to the nation. This was followed by an inspiring message from the Principal, emphasising the importance of values, education and responsible citizenship.

The cultural celebrations continued with a graceful and energetic dance performance by the Grade II students, followed by an impressive pyramid formation presented by students of Grades II and VII, symbolising unity, strength, balance and teamwork.

A powerful message by Grade VII student Daiva Krupa highlighted the responsibilities of young citizens towards the nation. The Grade VII students further added to the patriotic fervour with a soulful song.

A special highlight of the celebration was the Academic Achievement Award Ceremony for Grade X, Batch 2025–26. The subject-wise and overall academic toppers were felicitated in recognition of their dedication, perseverance and excellence. The achievers were also encouraged to inspire their juniors through their experiences and commitment to academic success.

The celebration also featured an informative and meaningful skit on the Dandi March by the Grade VII students, bringing alive the courage, determination and spirit of the freedom movement. A vibrant dance performance by students of Grades II and VII brought the cultural programme to a memorable conclusion.

The celebration was a fitting tribute to India's journey of freedom and a reminder that the true essence of independence lies in unity, responsibility, discipline and service to the nation. The programme left everyone with a renewed sense of pride and a commitment to carry forward the values that strengthen our nation.

Kaushal Bodh – Skill Education

An expert talk was conducted for the students of Grade VII as part of the Kaushal Bodh curriculum.

Ms. M. Pavani, a distinguished expert in School Habitat Gardening and Environmental Awareness, served as the resource person. She shared detailed and practical insights into gardening, caring for plants, and nurturing nature. She also highlighted the importance of developing and maintaining a habitat garden by understanding the needs of birds, insects, and small animals, thereby creating a safe and sustainable environment.

The session was highly interactive, with Ma'am patiently addressing the students' queries and encouraging them to develop a deeper sense of responsibility and care towards nature. The valuable guidance made the session an enriching and informative learning experience for the students.

Genesis Interschool Sports Meet - Celebrating Sportsmanship & Unity

Genesis Interschool Sports Meet was celebrated across all Genesis campuses with great enthusiasm and sportsmanship, bringing every campus together as one Genesis family. Students competed in various sporting disciplines, including athletics, table tennis, volleyball, basketball and kho-kho, with events conducted for both boys and girls.

Junior Girls-Kho-Kho Winners

A special note of appreciation to all our PE faculty for their tireless efforts, dedication and valuable time spent training, mentoring and moulding our young athletes. Their unwavering support played an integral role in our students' success.

Field Trips

Grade-V

Nizam's Museum

Grade V students had an enriching and memorable visit to Nizam's Museum. They explored fascinating artefacts, royal belongings, ancient coins, weapons, paintings, and other objects that reflected the grandeur of the Nizam era. The visit gave students a glimpse into the rich history and cultural heritage of Hyderabad. It was an engaging learning experience that helped them appreciate and value our glorious past.

Grade-II

Nature Explorers – A Day at the Botanical Garden!

Grade 2 children enjoyed an exciting field trip to the Botanical Garden. They explored different types of plants and trees and learned about nature. 🌱🌳 They also enjoyed an interesting snake show, making the trip a fun and memorable learning experience! 🐍✨

Shilpa Ramam

Grade-I

Grade 1 children enjoyed an exciting field trip to Shilparamam, where they explored traditional art, crafts, and village life. 🏡 🎨

It was a wonderful day filled with learning, discovery, and fun!

Grade-VI

Salar Jung Museum

Grade VI students had an enriching visit to the Salar Jung Museum, where they explored a fascinating collection of artefacts, paintings, sculptures, antiques, and historical objects. The visit offered them a glimpse into India's rich cultural heritage and history, making it a meaningful and memorable learning experience.

Main Causes of Waste in Varanasi

1. Large pilgrim and tourist growth — create bottles, wrappers, food scraps and other disposable waste.
2. Religious rituals at the ghats — leave flowers, cloth, lamps and cremation ash near or in the Ganges.
3. Homes, shops and street markets — produce mixed food, paper and plastic waste every day.
4. Poor segregation and open dumping — allow garbage to spread into lanes, drains and the river.
5. Sewage and waste water — add liquid pollution from homes and commercial activity.

Rainy Day Magic – Fun in the Rain!

Our young explorers had a joyful Rainy Day Celebration! 🌧️🌈
The children had lots of fun playing in the rain and enjoyed making paper boats. 🚢💧
It was a fun-filled day of learning, creativity, and wonderful rainy-day memories! 🌧️😊

School Tour-Exploring our School

Our little learners enjoyed a fun-filled school tour to explore and discover different areas in the school. 🧒🧒🌟

They visited various places, observed their surroundings, and learned about the different spaces in the school. 🏠🔍

It was a wonderful opportunity for our children to learn, explore, and become familiar with the school environment.

♥ Yellow Colour Day – A Splash of Sunshine! 🌻

Our pre-primary children celebrated Yellow Colour Day with great excitement and joy! 🌻 They participated in a fun-filled ramp walk and enjoyed creative handprint and earbud printing activities.

It was a cheerful day of colours, creativity, and happy learning!

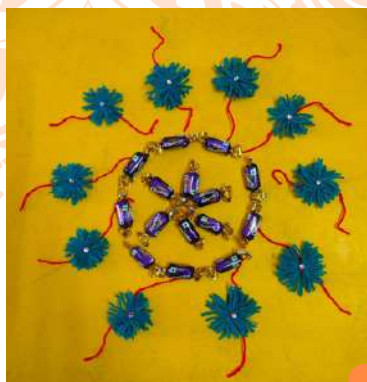

Raksha Bandhan - A Bond of Love!

Our pre-primary children celebrated Raksha Bandhan with joy and enthusiasm. They tied colourful rakhis and learned about the beautiful bond of love, care, and togetherness.

It was a heartwarming celebration filled with smiles, creativity, and cherished memories!

Inspiring Personalities of the Month

Her Courage, My Inspiration

Droupadi Murmu's life inspires me because she teaches me the value of courage, perseverance, and hope. Despite facing many personal tragedies and difficulties, she never gave up or stopped working towards her goals. Her journey from a humble tribal background to becoming the President of India shows me that our circumstances do not decide our future.

She inspires me to study sincerely, work hard, and believe in myself. Whenever I face difficulties in my studies or personal life, I will remember her journey and remind myself that every challenge can be overcome with patience and determination.

I also admire her honesty, simplicity, kindness, and dedication to serving others. Her life teaches me that true success is not just about achieving great things but also about remaining humble and compassionate.

Droupadi Murmu motivates me to become a responsible, hardworking, and kind person and to never stop believing in my dreams.

R. Ananya
VIIIC

Kandula Jessie: A Role Model for Young Minds

Kandula Jessie, a 14-year-old Class 10 student from a government school in Dhavaleswaram, Andhra Pradesh, is a remarkable young achiever who has inspired me with her extraordinary journey. She was selected as one of only 20 Indian participants for Mission ShakthiSAT, the world's first global all-girls lunar CubeSat mission.

What makes her achievement truly remarkable is that she was selected from nearly 12,000 applicants from 108 countries. Coming from a government school, Jessie has shown that determination, curiosity, and hard work can help young students reach extraordinary heights.

I truly admire Kandula Jessie for her courage, dedication, and remarkable achievement. She is a true inspiration to young girls and students everywhere, encouraging us to look beyond our limitations and reach for the stars.

My Duty Towards My Nation

My Role in Nation Building

Every citizen has certain duties towards the nation. A nation is not only its land and government, but also its people, culture, values, and environment. As a responsible citizen, I believe that I have a role to play in the progress of my country.

My first duty is to respect the Constitution, national symbols, laws, and the rights of others. As a student, I should study sincerely, remain disciplined, develop useful skills, and become a responsible person who can contribute to society.

I should keep my surroundings clean, protect nature, save water and electricity, and avoid wasting resources. Helping those in need, respecting people from different backgrounds, promoting unity, and avoiding hatred and misinformation are also my responsibilities.

Patriotism is not only about words or displaying the national flag; it is reflected in our everyday actions. By being honest, hardworking, caring, and responsible, I can do my part in making my nation cleaner, stronger, and better.

What Freedom Means to Me

Freedom to me means having the right to make choices, express my thoughts, and follow my dreams. As a sixth grader, it gives me the confidence to choose what I enjoy, ask questions, share my ideas, and discover my talents.

However, freedom does not mean doing whatever we want. It comes with responsibility. We must make wise choices, respect others, follow rules, and understand how our actions affect the people around us.

Freedom also gives us the courage to learn from our mistakes, speak up when something is unfair, and respect different opinions. It helps us grow into confident and responsible individuals.

For me, freedom is a precious gift—the freedom to be myself, the responsibility to do what is right, and the opportunity to dream, learn, and build a better future.

V. Vedansh Kumar
XA

P. Lohithaksh Sowrya
VII

Sustainable Corner

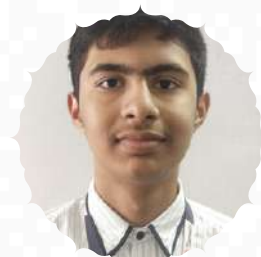

From Little Seeds To Cleaner Waters

The global water crisis is one of humanity's greatest challenges. Several regions, including Iran, Ladakh, and many other parts of the world, face acute water scarcity. At the same time, water pollution, particularly contamination by microplastics, is becoming an increasing threat to human health and the environment.

A remarkable solution has emerged from three Indian teenagers—Avyana Mehta, Ariana Agarwal, and Vivaan Chhawchharia, who won The Earth Prize 2026 for their innovative product, Plas-Stick. The team developed a magnetic powder using compounds derived from discarded tamarind seeds. With support from experts at IIT Guwahati, they modified tamarind kernel powder (TKP), which contains xyloglucan, so that it could attach to microplastics and magnetic material.

When added to contaminated water, the powder causes tiny microplastics to gather into larger clumps. A magnet can then pull these particles out, helping to filter the water. Under testing conditions, the process takes about 30 minutes and has achieved a microplastic removal rate of around 90%.

What makes Plas-Stick especially promising is that it uses tamarind seeds, an agricultural waste product, making it potentially affordable and sustainable. If further developed, it could provide communities with limited resources a cost-effective way to reduce microplastic contamination in water.

S. Shashank Reddy
Xth

Plas-Stick is a powerful example of how young minds can create solutions to global challenges. These teenagers have shown that innovation need not begin in a laboratory—it can begin with a simple idea, determination, and a desire to make the world a better place.

Value Corner

Owning Mistakes

Everyone makes mistakes, and that is okay. When I make a mistake, I should accept it and say, "I am sorry." I should learn from my mistakes and try not to repeat them. Owning my mistakes makes me honest, brave, and responsible.

"Mistakes help me learn and become a better person."

D. Lekhana
11th

Book Reviews

Stop Overthinking

Stop Overthinking, written by Nick Trenton, is a self-help book that explores a common problem—overthinking and unnecessary worrying. The book explains how excessive thinking can make us stressed, distracted, and unable to enjoy the present. It offers 23 practical techniques to manage negative thoughts and develop a calmer mindset. I particularly liked the technique, “Focus on what you can control,” as it reminds us not to waste our energy worrying about things we cannot change. I found the book realistic and highly relatable. It teaches us that situations are not always the real problem; our thoughts and reactions can be. Overall, I recommend this book to anyone who wants to understand their thought patterns and lead a calmer life. Rating: 5/5

Dashavatara: The Ten Incarnations of Vishnu

Dashavatara: The Ten Incarnations of Vishnu, written by V. Ashok, is an interesting and informative book that narrates the ten incarnations of Lord Vishnu, from Matsya to the future avatar, Kalki. Each incarnation has a unique purpose and teaches valuable lessons. The book explains important values such as courage, honesty, compassion, devotion, and justice through engaging stories. My favourite parts were the stories of Narasimha and Krishna because they were inspiring and full of wisdom. I also enjoyed the book because it helped me understand India's rich cultural and spiritual heritage. The language is simple and engaging, making the book easy to read. Overall, I would recommend this book to anyone interested in mythology, values, and Indian culture. Rating: 5/5

N. Manaswini
XB

The Daughter from a Wishing Tree

The Daughter from a Wishing Tree, written by Sudha Murty, is an interesting book that presents unusual stories about women in Indian mythology. The book shifts focus from male legends to goddesses and heroines like Parvati, Lakshmi, Sita, Draupadi, Bhamati and Mandodari. It explores their courage, wisdom, strength and determination. I liked how the author presents these stories in simple and engaging language, making the book suitable for young readers. The book helped me understand Indian mythology from a different perspective and highlighted the importance of women, empowerment and gender equality. Overall, it is an informative and inspiring read that encourages readers to look at familiar legends in a new way. I would recommend it to anyone interested in mythology. Rating: 5/5

V. Rithwik Rudra

Teachers' Corner

The Role of Parents in a Child's Success

Behind every successful child is a parent who believes, encourages, and stands beside them every step of the way. A child's success is not measured by marks alone—it is built on love, values, guidance, and unwavering support at home.

Parents are a child's first teachers, role models, and strongest source of inspiration. Their encouragement builds confidence, their values shape character, and their faith gives children the courage to dream and achieve.

When parents and schools work together, they nurture not only successful learners but also kind, resilient, and responsible individuals who are ready to make a positive impact on the world.

A parent's belief in a child is the first step towards a lifetime of success.

Ms. P. Mamatha Reddy
Coordinator

The Future of Learning in the AI Era

The future of learning is becoming more innovative, personalised, and interactive with the rise of Artificial Intelligence. AI enables students to explore new ideas, learn at their own pace, and access knowledge in engaging ways. It can support teachers by providing valuable insights and helping create more effective learning experiences.

As technology evolves, classrooms will move beyond traditional textbooks towards interactive, collaborative, and experiential learning. Students will learn to use AI responsibly while developing creativity, critical thinking, problem-solving, communication, and digital skills.

The role of the teacher will remain vital—as a mentor, facilitator, and guide who inspires curiosity and nurtures human values. The AI era is not about replacing teachers, but about empowering educators and learners to achieve more.

The future of education lies in combining the power of technology with the power of human imagination, empathy, and wisdom.

Ms. K. Namratha

If you subtract me from 100, you get nothing

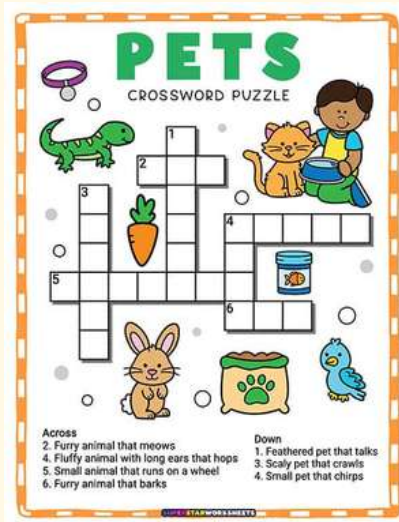

What number I am ?

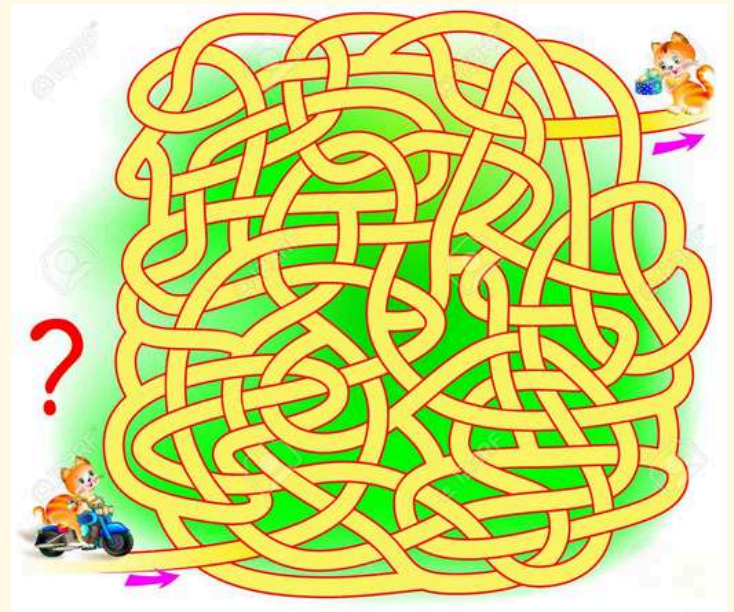

2. How many bricks does it take to complete a building made of brick?

3.

4. Help the cat find the way.

5. If: $2 + 2 = 44$

$3 + 3 = 96$

$4 + 4 = 168$

$5 + 5 = 2510$

Then:

$6 + 6 = ?$

Answers:
1. 100 - it's not an odd number, it's higher than 90, it's not higher than 100 (because it's equal 100), if you subtract 100 - 100, you get nothing.
2. one brick
3. 1. Parrot, 2. Cat, 3. Lizard, 4. Bird, 5. Hamster, 6. Dog.
5. The missing number is 3612. The answer is the number multiplied by itself and then the number added to itself. Six multiplied by six is 36, and six plus six is 12.

THANK YOU!
